This screenshot shows the 'General' settings page in WordPress. The left sidebar contains a menu with options: Posts, Media, Pages, Comments, Appearance, Plugins, Users, Tools, Settings (highlighted), General, Writing, Reading, Discussion, Media, and Permalinks. The main content area includes the following fields and options:

- Site Title:** A text field containing 'AW'.
- Tagline:** A text field containing 'Mostramos contenido de Aplicaciones Web.' with a subtext: 'In a few words, explain what this site is about.'
- WordPress Address (URL):** A text field containing 'http://localhost'.
- Site Address (URL):** A text field containing 'http://localhost' with a subtext: 'Enter the address here if you want your site home page to be different from your WordPress installation directory.'
- Administration Email Address:** A text field containing 'antonioluisdl@gmail.com' with a subtext: 'This address is used for admin purposes. If you change this we will send you an email at your new address to confirm it. The new address will not become active until confirmed.'
- Membership:** A checkbox labeled 'Anyone can register' which is currently unchecked.
- New User Default Role:** A dropdown menu set to 'Subscriber'.

This screenshot shows the 'Date and Time' settings page in WordPress. The left sidebar is identical to the previous screenshot. The main content area includes the following fields and options:

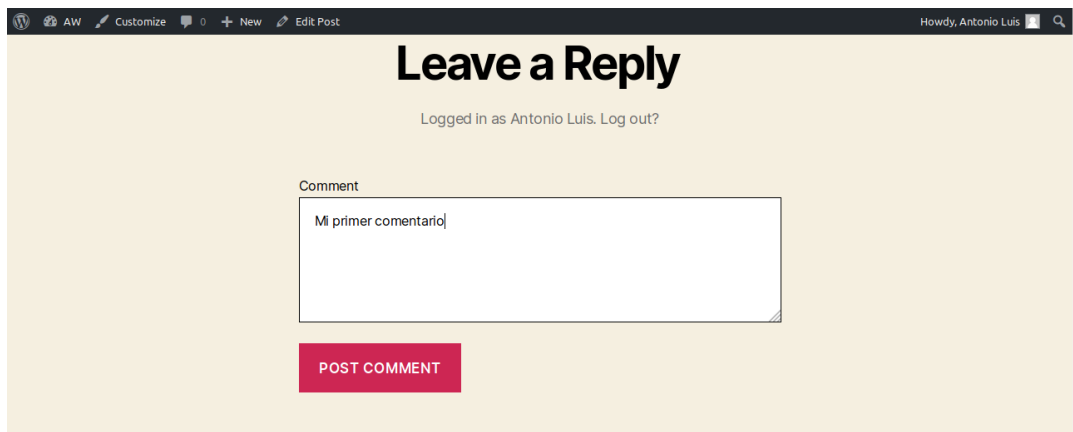

- Timezone:** A dropdown menu set to 'UTC+1'. Subtext: 'Choose either a city in the same timezone as you or a UTC (Coordinated Universal Time) time offset.' Below it, it says 'Universal time is 2019-11-27 08:05:07'.
- Date Format:** Radio buttons for different date formats. 'November 27, 2019' is selected. Other options include '2019-11-27', '11/27/2019', '27/11/2019', and 'Custom:'. A preview shows 'November 27, 2019'.
- Time Format:** Radio buttons for different time formats. '8:05 am' is selected. Other options include '8:05 AM', '08:05', and 'Custom:'. A preview shows '8:05 am'.

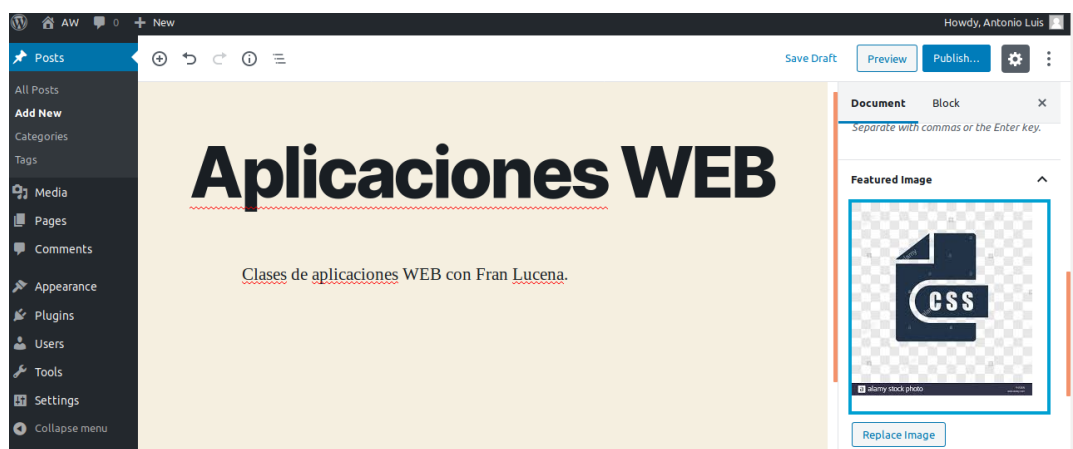

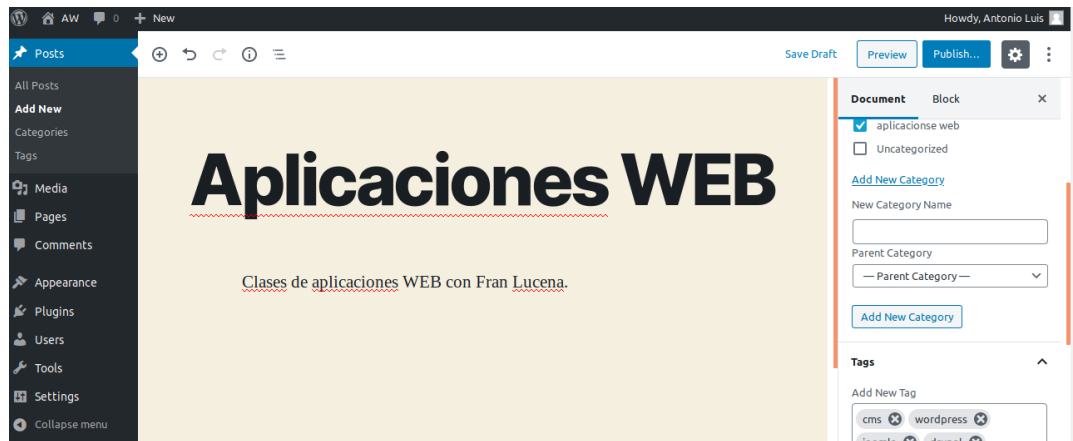

This screenshot shows the 'Permalinks' settings page in WordPress. The left sidebar is identical to the previous screenshots. The main content area includes the following fields and options:

- Post name:** A radio button that is selected, with a text field containing 'http://localhost/sample-post/'.
- Custom Structure:** An unselected radio button with a text field containing 'http://localhost /%postname%'.
- Available tags:** A list of tags in boxes: %year%, %monthnum%, %day%, %hour%, %minute%, %second%, %post_id%, %postname%, %category%, and %author%.
- Optional:** A section with subtext: 'If you like, you may enter custom structures for your category and tag URLs here. For example, using topics as your category base would make your category links like http://localhost/topics/uncategorized/. If you leave these blank the defaults will be used.'
- Category base:** A text field containing 'aplweb'.
- Tag base:** An empty text field.
